

Superstore Sales Dashboard - Business Insights Report

Executive Summary

Total Sales: 147.24K

Total Profit: 83.22K

Approximate Profit Margin: 56.5%

Business Insights

1. Highest Sales Category: Furniture generated the highest sales with approximately 76.36K (51.86%) of total sales.
2. Regional Sales: East region recorded the highest sales with approximately 48.01K. (Profit by region was not available in the dashboard.)
3. Monthly Trend: October was the best-performing month with approximately 24K sales, while February showed the lowest sales (~3K).
4. Top Products: Canon image series generated the highest revenue (~11K), followed by 3D Systems Cube (~9K) and Cubify CubeX (~8K).
5. Top Customers: Tom Ash... contributed the highest sales (~11K), followed by Bill Shonely (~9K) and Grant Thornton (~8K).
6. Ship Mode: No ship mode visual was available; therefore the most-used ship mode cannot be determined from the dashboard.
7. Lowest Profit Region: Cannot be determined because the dashboard does not include a Profit by Region visual.

Recommendations

- Continue focusing on the Furniture category.
- Analyze why October performed best and apply similar strategies in lower-performing months.
- Strengthen relationships with top customers.
- Add 'Profit by Region' and 'Ship Mode Analysis' visuals to make the dashboard more complete.
